Design by MM Company

Lisbon's characteristic ceramic tiles inform the design of this lamp, created by MM Company design studio. Its three-dimensional structure comprises small colourful tiles applied to an oval-shaped core.

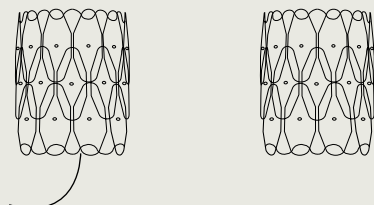

La lampada è ispirata al design delle piastrelline tipiche di Lisbona, ed è stata progettata dal design studio di MM Company. La struttura, in tre dimensioni, è composta da un'anima ovale alla quale sono applicate delle piccole mattonelline a pastiglia colorate.

Building

Design by Enea Ferrari

On the year of his 80th birthday, Enea Ferrari draws inspiration from his numerous travels around the world, during which he observed great skyscrapers and captured their essence into the creation of a versatile and customizable lamp. The interlocking structure, composed of overlaying elements, allows for a complete customization.

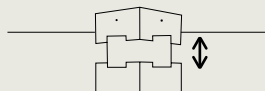

Nell'anno del suo ottantesimo compleanno, Enea Ferrari trae ispirazione dal ricordo dei numerosi viaggi compiuti, nel quale ha osservato i più grandi grattacieli, cogliendone l'essenza per dar vita ad una lampada versatile e customizzabile. La struttura ad incastro, formata da elementi sovrapposti, permette una personalizzazione completa.

Cut

Design by Matteo Agati

Matteo Agati creates a lamp with rigid and geometric lines that express a seamless combination of rigour and bursts of light. Made of Polilux and Methacrylate, Cut is born from the structural interaction between triangular sections.

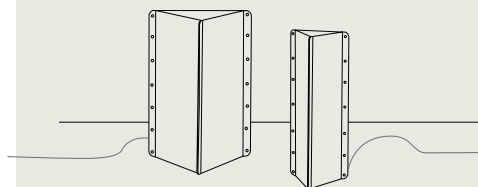

Matteo Agati disegna Cut, lampada dalle forme rigide e geometriche: un perfetto connubio tra rigore e squarci luminosi. Realizzata in Polilux e Metacrilato, è ricavata dal dialogo strutturale tra sezioni triangolari.

Dalia

Design by Matteo Agati

Matteo Agati designed a Polilux suspension lamp displays a wide interlocking structure. Luminous reflections are created through a meticulous interlocking play, featuring a curved and mirrored methacrylate element.

Progettata da Matteo Agati, è una lampada a sospensione, realizzata in Polilux, con un'ampia struttura ad incastro. Il risultato è una diffusione di riflessioni luminose create grazie ad un minuzioso gioco di incastri e ad un elemento in Metacrilato curvo e specchiante.

Folio

Design by MM Company

The lamp conceived by MM Company's design studio features a Polilux cylindrical core onto which a curved surface has been fastened recreating the soft and light effect of fabric.

La lampada, disegnata dal design studio di MM Company, è formata da un'anima cilindrica in Polilux, alla quale è stata "abbottonata" una seconda superficie curva, che ricrea l'effetto morbido e leggero di un tessuto.

Prisma

Design by Enea Ferrari

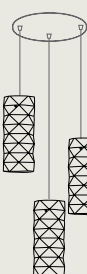

The inspiration behind this lamp by designer Enea Ferrari is exquisitely artistic and it originates from the geometric mosaic floors of the Basilica di San Marco in Venice and San Vitale in Ravenna. The engraved triangular shapes of the Prisma lamp play with the concept of light and shadows to recreate the mosaic effect.

Per questa lampada il designer Enea Ferrari trae ispirazione dall'arte, dai mosaici pavimentali geometrici della Basilica di San Marco a Venezia e di San Vitale a Ravenna. Le forme triangolari, incise della Prisma, giocano con il concetto di luci e ombre per ricreare l'effetto a mosaico.

Queen

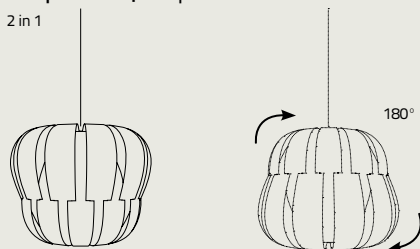

Design by Elena Trevisan

Queen is an elegant icon lamp that fits for a Queen. Queen stands out with its majestic and luxurious shape, serving as the visual centrepiece of any room. Queen consists of 24 strips positioned in such a way that they partially overlap each other, giving a strongly expressive and glamour striped lighting effect.

Queen è un' elegante lampada iconica che ben si adatta ad una Regina. Si distingue per la sua forma maestosa e lussuosa, che funge da fulcro visivo di ogni stanza. Queen è composta da 24 strisce di bande posizionate in modo tale da sovrapporsi parzialmente l'una all'altra, dando un effetto alla luce fortemente espressivo e glamour.
